Experience: https://mugdhasdeodhar.github.io/mugdhasdeodhar/#exp

OPS Shipping Clerk / Data Analyst   **National Logistics Services – Mississauga, ON**   *Jul 2015 – Jan 2024*

- Performed **logistics and supply chain analytics** using **SQL and Excel** to analyse shipment, inventory, and fulfilment data.
- Developed **Power BI dashboards** to monitor **OTIF, order accuracy, inventory levels, lead time, and delivery performance**.
- Conducted **data validation and reconciliation checks** to ensure reporting accuracy and consistency.
- Collaborated with operations and warehouse teams to improve **inventory management and fulfillment efficiency**, contributing to a **~15% improvement in supply chain performance**.
- Delivered clear, actionable reports to non-technical stakeholders to support operational decision-making.

Electronic Data Processing Manager   **Poona Hospital & Research Centre – Pune, India**   *Jun 2000 – Jan 2014*

- Delivered **healthcare analytics and operational reporting** using **SQL and Excel** to support hospital leadership and department heads.
- Designed, tracked, and maintained **healthcare KPIs** related to patient flow, utilization, and administrative performance.
- Led **MIS reporting** across clinical and administrative functions to highlight trends and performance gaps.
- Automated recurring reports, improving **reporting efficiency, data accuracy, and turnaround time**.
- Ensured **data accuracy, compliance, and confidentiality** while working with sensitive patient data.
